

Dear Shareholder:

Truxton had a great year in 2025, growing EPS to \$7.46 compared to \$6.34 in 2024 – an increase of 18%. This exceptional performance flowed from very strong loan growth, the addition of many new wealth management relationships, and meaningful fees in our capital advisory business.

We also benefitted from a “leverage strategy,” a plan to grow assets through increased wholesale deposit funding with the proceeds invested in low-risk securities at a modest spread. While this is admittedly a bit of “inside baseball,” it is worth explaining because it reveals both our discipline and the thoughtfulness behind our growth.

The financial assets of Truxton Corporation grew by 41% during calendar 2025, the largest increase since the early days when our base was tiny. This asset growth was not an accident but was planned and budgeted. At the end of 2024, Truxton’s balance sheet sat a whisker under \$1 billion, a threshold we would cross in 2025. Going over \$1 billion would subject Truxton to greatly increased internal control obligations under the FDIC Improvement Act of 1991 (FDICIA), creating significant new audit costs in 2026 and beyond.

To defray these costs, we decided to grow significantly beyond the \$1 billion mark. Being amply capitalized at Truxton, our equity base would easily support the increased assets, and the small, low risk spread would defray the increased FDICIA cost. The strategy delivered the hoped-for results.

Then in November 2025, the FDIC amended the regulation, raising the internal control threshold to \$5 billion, sparing us this increased cost. This change will save us some professional fees in 2026 and beyond.

We added more new team members in 2025 than in any other year in our history, beginning the year with 73 employees and ending with 92. These folks joined every part of our business and should produce new revenue and depth in key service areas. As long-tenured professionals approach retirement, we are thoughtfully building the next generation of Truxton talent.

The Nashville economy remains strong, with employment growth about 1% in 2025. The real estate market here reflects national trends but is generally better given Nashville’s strength. We ended the year with no significant past-due loans and no real estate owned. The loan growth our bankers created at the end of 2025 gives us a running start for the new year. Capital markets have also begun the new year in stable condition, supporting a positive outlook to start 2026.

2025 was our 13th consecutive year of increased dividends, and we expect to extend the streak in 2026.

Truxton leadership is deeply indebted to our partners, our fellow colleagues and shareholders. These are the providers of the human and capital inputs that make this business possible. Thank you for your support.

Thomas S. Stumb

## INDEPENDENT AUDITOR'S REPORT

The Board of Directors  
Truxton Corporation  
Nashville, Tennessee

***Opinion***

We have audited the consolidated financial statements of Truxton Corporation, which comprise the consolidated balance sheets as of December 31, 2025 and 2024, and the related consolidated statements of net income, comprehensive income, changes in shareholders' equity, and cash flows for the years then ended, and the related notes to consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Truxton Corporation as of December 31, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Truxton Corporation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Truxton Corporation's ability to continue as a going concern for one year from the date the consolidated financial statements are available to be issued.

---

(Continued)

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Truxton Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Truxton Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

### ***Other Information***

Management is responsible for the other information included in the Annual Report. The other information comprises the President's letter but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the consolidated financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Nature of Operations and Principles of Consolidation: The consolidated financial statements include Truxton Corporation and its wholly owned subsidiary, Truxton Trust Company, together referred to as “the Corporation.” Intercompany transactions and balances are eliminated in consolidation.

Truxton Trust Company, referred to as “the Bank”, represents substantially all the operations in the consolidated financial statements and it provides a variety of banking, investment management and trust administration services to individuals, businesses, and charitable institutions. Its primary deposit products are demand, money market and certificates of deposit and its primary lending products are residential and commercial real estate mortgages, commercial loans, and loans to individuals.

Truxton Trust Company has two wholly owned subsidiaries, Insurgent Investments, Inc., which primarily manages an investment portfolio of municipal securities, and Truxton Capital Management, LLC, which primarily provides investment management and advisory services to businesses and their owners.

Subsequent Events: The Corporation has evaluated subsequent events for recognition and disclosure through January 29, 2026, which is the date the financial statements were available to be issued.

Use of Estimates: To prepare financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided and actual results could differ.

Cash Flows: Cash and cash equivalents include cash, deposits with other financial institutions with maturities under 90 days, and federal funds sold. Net cash flows are reported for customer loan and deposit transactions, premises and equipment, and time deposits in other financial institutions.

Time Deposits in Other Financial Institutions: Time deposits in other financial institutions mature within one year and are carried at cost.

Securities: Debt securities are classified as available-for-sale when they might be sold before maturity. Available-for-sale securities are carried at fair value with unrealized holding gains and losses reported in accumulated other comprehensive loss, net of tax.

Interest income includes net amortization of purchase premium or discount. Premiums and discounts on securities are amortized on the level-yield method. Gains and losses on sales are recorded on the trade date and determined using the specific identification method.

A debt security is placed on nonaccrual status at the time any principal or interest payments become 90 days delinquent. Interest accrued but not received for a security placed on nonaccrual is reversed against interest income.

Allowance for Credit Losses – Available-For-Sale Securities: For available-for-sale debt securities in an unrealized loss position, the Corporation first assesses whether it intends to sell, or it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security’s amortized cost basis is written down to fair value through income. For available-for-sale debt securities that do not meet the criteria, the Corporation evaluates whether the decline in the fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income.

---

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Changes in the allowance for credit losses are recorded as credit loss expense (or reversal). Losses are charged against the allowance when management believes the uncollectibility of an available-for-sale security is confirmed or when either of the criteria regarding intent for requirement to sell is met.

Accrued interest receivable on available-for-sale debt securities totaled \$3,061 and \$1,664 as of December 31, 2025 and 2024, respectively, and is excluded from the estimate of credit losses.

Loans: Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at the principal balance outstanding, net of deferred loan fees and costs. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized in interest income using the level-yield method without anticipating prepayments.

Interest income is reported on the interest method and includes amortization of net deferred loan fees and costs over the loan term. Interest income on all loans is discontinued at the time the loan is 90 days delinquent unless the credit is well-secured and in process of collection. Past due status is based on the contractual terms of the loan. In all cases, loans are placed on nonaccrual or charged-off at an earlier date if collection of principal or interest is considered doubtful. Nonaccrual loans and loans past due 90 days still on accrual include both smaller balance homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans.

All interest accrued, but not received, for loans placed on nonaccrual are reversed against interest income. Interest received on such loans is accounted for on the cash-basis or cost-recovery method until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Concentration of Credit Risk: Most of the Corporation's business activity is with customers located within Nashville, Tennessee. Therefore, the Corporation's exposure to credit risk is significantly affected by changes in the economy in the Nashville, Tennessee metropolitan area.

Allowance for Credit Losses on Loans: The allowance for credit losses represents the portion of the loan's amortized cost basis that the Corporation does not expect to collect due to credit losses over the loan's life, considering past events, current conditions, and reasonable and supportable forecasts of future economic conditions considering macroeconomic forecasts. Loan losses are charged against the allowance when management believes the uncollectability of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

Prior to December 31, 2025, the Corporation calculated its expected credit loss estimate using two methodologies allowed under the accounting guidance, Weighted Average Remaining Maturity (WARM) and Scaled CECL Allowance for Losses Estimator (SCALE). SCALE was used for the Corporation's two construction loan portfolios, while all of the other loan pools used the WARM methodology.

Following a periodic review of its credit loss estimation process, the Corporation concluded that a discounted cash flow estimation technique, adjusted for current conditions and reasonable and supportable forecasts, is a more preferred approach for estimating the expected credit losses of its loan segments. The transition to a discounted cash flow methodology also aligns with regulatory guidance applicable to institutions exceeding \$1 billion in total assets, for which the SCALE methodology is no longer permitted by regulators. The applicable CECL estimation technique is used to estimate the expected credit loss for off-balance sheet commitments for each loan segment.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

As part of the updates to estimation techniques, management updated certain related inputs and assumptions used to estimate the expected credit loss. The Corporation determined that the updated estimation techniques and related inputs and assumptions provide a more refined and granular approach to estimating expected credit losses, allowing the calculation to be performed at a more granular level to relevant historical data, peer experience, the specific characteristics of its loan portfolios and unfunded commitments, and the incorporation of reasonable and supportable forecasts of future economic conditions.

The changes in the estimation techniques and certain related inputs and assumptions used in the determination of the Corporation's expected credit losses on its loan portfolio and unfunded commitments did not have a material impact to the Corporation's operating results and financial condition, as the change in estimation resulted in a \$242 decrease to the allowance for credit losses. The provision for credit losses for the year ended December 31, 2025, reflects this change in estimate and is accounted for prospectively. CECL estimates, similar to the Corporation's other significant estimates, utilize inputs and assumptions that are subject to inherent estimation uncertainties. The Corporation may update these inputs and assumptions based on portfolio composition, performance data, economic forecasts, or other CECL components in a manner consistent with ASC 326. Such updates may result in significant changes in CECL estimates in future periods.

The discounted cash flow estimation technique pairs loan-level contractual term information including maturity date, payment amount and interest rate with pool level assumptions such as default rates, severity rates and prepayment speeds to estimate expected cash flows for the pool. The Corporation continues to utilize unemployment and GDP as forecast inputs to forecast losses during the reasonable and supportable period and reversion period that provided the strongest correlation to the Corporation and its peers' historical losses. Adjustments to historical loss information are made for differences in current loan-specific risk characteristics such as differences in underwriting standards, portfolio mix, delinquency level, or term as well as for changes in environmental conditions, such as changes in unemployment rate, property values, or other relevant factors.

The allowance for credit losses is measured on a collective (pool) basis when similar risk characteristics exist. The Corporation has identified the loan portfolio segments listed below.

*Residential construction loans.* The Corporation provides construction financing for small residential developers of single-family homes. This category excludes single loan commitments funding the construction of five or more individual houses but does include all owner-occupied residential construction loans. These loans are in the construction and land development segment.

*Commercial construction loans.* The Corporation provides financing for commercial construction projects and vacant land (excluding agricultural property). This category includes single loan commitments funding the construction of five or more individual homes and both non-owner occupied and owner-occupied properties of all types. These loans are in the construction and land development segment.

Residential and commercial construction loans generally are made for relatively short terms. They generally are more vulnerable to changes in economic conditions. Furthermore, the nature of these loans is such that they are more difficult to evaluate and monitor. The risk of loss on a construction loan is dependent largely upon the accuracy of the initial estimate of the property's value upon completion of the project and the estimated cost (including interest) of the project. Periodic site inspections are made on construction loans.

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

*Residential line of credit loans.* The Corporation's residential line of credit loans are revolving, open-end lines of credit secured by 1-4 family residential properties. These loans can be secured by owner-occupied property (primary or secondary residence) or by investment property and can be a primary or junior lien. These loans are in the residential real estate segment.

*Residential real estate 1-4 family mortgage loans.* The Corporation provides closed-end mortgages secured by 1-4 family residential mortgages. This category includes junior lien 1-4 family residential mortgages and both owner-occupied and non-owner occupied collateral. These loans are in the residential real estate segment.

*Commercial real estate loans.* The Corporation provides commercial real estate mortgages (including those secured by multifamily properties) combined into one pool regardless of property type. A portion of these loans are non-recourse but others have guarantors or, in the case with mortgages secured by owner-occupied properties, full commercial business interests supporting cash flow.

As it relates to all mortgages secured by real properties, adverse economic conditions in the Corporation's market area may reduce borrowers' ability to repay these loans and may reduce the collateral securing these loans.

*Commercial and industrial loans.* The Corporation provides a mix of variable rate and fixed rate loans to commercial operations. While these loans can be unsecured, they also include a variety of collateral such as accounts receivable, inventory, equipment, and vehicles. Most are guaranteed by the business principals and are typically made on the basis of the borrower's ability to repay from the cash flow of the business enterprise. Adverse economic conditions may affect the repayment ability of these loans. These loans are in the commercial segment.

*Consumer loans.* The Corporation's consumer loans include both open-end and closed-end loans to individuals for personal, family, or household purposes. These loans may be secured or unsecured but are never secured with real estate.

Loans that do not share risk characteristics are evaluated on an individual basis and not included in the loan pools highlighted above. The Corporation has determined the following circumstances in which a loan may require an individual evaluation: collateral dependent loans; loans for which foreclosure is probable; and loans with other unique risk characteristics. A loan is deemed collateral dependent when 1) the borrower is experiencing financial difficulty and 2) the repayment is expected to be primarily through sale or operation of the collateral. The allowance for credit losses for collateral dependent loans as well as loans where foreclosure is probable is calculated as the amount for which the loan's amortized cost basis exceeds fair value. Fair value is determined based on appraisals performed by qualified appraisers and reviewed by qualified personnel. In cases where repayment is to be provided substantially through the sale of collateral, the Corporation reduces the fair value by the estimated costs to sell.

**Allowance for Credit Losses on Off-Balance Sheet Credit Exposures:** The Corporation estimates expected credit losses over the contractual period in which the Bank is exposed to credit risk via a contractual obligation to extend credit unless that obligation is unconditionally cancellable by the Corporation. The allowance for credit losses on off-balance sheet credit exposures is adjusted through credit loss expense. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life.

The allowance for credit losses on unfunded commitments was \$741 and \$483 and included in other liabilities as of December 31, 2025 and 2024, respectively.

**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Bank Owned Life Insurance: The Bank has purchased life insurance policies on certain key employees. Bank owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

Transfers of Financial Assets: Transfers of financial assets are accounted for as sales, when control over the assets has been relinquished. Control over transferred assets is deemed to be surrendered when the assets have been isolated from the Corporation, the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and the Corporation does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Premises and Equipment: Premises and equipment are stated at cost less accumulated depreciation. Leasehold improvements are amortized using the straight-line method over the shorter of the lease terms or the useful lives. Furniture, fixtures and equipment are depreciated using the straight-line method with useful lives ranging from three to five years.

Leases: The Corporation's leases are classified as operating leases at the lease commencement date. Lease expense for operating leases is recognized on a straight-time basis over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

The Corporation uses its incremental borrowing rate at lease commencement to calculate the present value of lease payments when the rate implicit in a lease is not known. The Corporation's incremental borrowing rate is based on FHLB amortizing advance rate, adjusted for the lease term and other factors.

The Corporation has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Corporation has also elected not to recognize leases with original lease terms of 12 months or less (short-term leases) on the Corporation's balance sheet.

Restricted Equity Securities: The Bank is a member of the Federal Home Loan Bank (FHLB) and Federal Reserve Bank (FRB) systems. Members are required to own a certain amount of stock based on the level of borrowings and on their level of equity and may invest in additional amounts. FHLB and FRB stock are carried at cost, classified as restricted equity securities and periodically evaluated for impairment based on ultimate recovery of par value. Both cash and stock dividends are reported as income.

Prepaid Long-term Compensation: The Corporation paid retention bonuses in cash to certain key employees. These cash bonuses are considered long-term compensation to be earned over a 24 to 120-month requisite service period. The amount of the contracts is earned pro rata by the employees and expensed pro rata by the Corporation over the contractual term of the agreements. In the event that the employee leaves during the life of the contract, the employee is obligated to repay the unearned amount. Prepaid long-term compensation amounts of \$1,176 and \$747 were included in other assets as of December 31, 2025 and 2024, respectively.

Long-term Assets: Premises and equipment and other long-term assets are reviewed for impairment when events indicate their carrying amount may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Assets Under Management: Assets held in fiduciary or agency capacities are not included in the consolidated balance sheets since such items are not assets of the Corporation.

Wealth Management Services Income Recognition: The Corporation earns wealth management fees from its contracts with customers to manage assets for investment, and/or to transact on their accounts. These fees are primarily earned over time as the Corporation provides the contracted monthly or quarterly services. Income from wealth management services is calculated by multiplying each investment management account's market value, determined on a specific date each month, by a static or tiered percentage, according to the investment management agreement. The income resulting from wealth management services accounts is recognized monthly. Other related services provided include financial planning services and the fees the Corporation earns, which are based on a fixed fee schedule, are recognized when the services are rendered.

Derivatives: The Corporation has entered into derivative contracts designated as a) a hedge of fair value of a recognized asset or liability or of an unrecognized firm commitment ("fair value hedge"), and b) a hedge of the variability of cash flows to be received or paid related to a recognized asset or liability ("cash flow hedge"). For a fair value hedge, the gain or loss on the derivative, as well as the offsetting loss or gain on the hedged item, are recognized in current earnings as fair values change. For a cash flow hedge, the gain or loss on the derivative is reported in other comprehensive income and is reclassified into earnings in the same periods during which the hedged transaction affects earnings. For both types of hedges, changes in the fair values of derivatives that are not highly effective in hedging the changes in

fair value or expected cash flows of the hedged item are recognized immediately in current earnings. Net cash settlements on derivatives that qualify for hedge accounting are recorded in interest income or interest expense, based on the item being hedged. Cash flows on hedges are classified in the cash flow statement the same as the cash flows of the items being hedged.

The Corporation formally documents the relationship between derivatives and hedged items, as well as the risk-management objective and the strategy for undertaking hedge transactions at the inception of the hedging relationship. This documentation includes linking hedges to specific assets and liabilities on the balance sheet. The Corporation also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivative instruments that are used are highly effective in offsetting changes in fair values or expected cash flows of hedged items. The Corporation discontinues hedge accounting when it determines that the derivative is no longer effective in offsetting changes in fair value of the hedged item, the derivative is settled or terminates, or the treatment of the derivative as a hedge is no longer appropriate or intended.

When hedge accounting is discontinued, subsequent changes in fair value of the derivative are recorded as non-interest income. When a fair value hedge is discontinued, the hedged asset or liability is no longer adjusted for changes in fair value and the existing basis adjustment is amortized or accreted over the remaining life of the asset or liability. When a cash flow hedge is discontinued but the hedged cash flows have a more than remote probability of occurring, gains or losses that were accumulated in other comprehensive income are amortized into earnings over the same periods which the hedged transactions will affect earnings.

The Corporation is exposed to losses if a counterparty fails to make its payments under a contract in which the Corporation is in the net receiving position. The Corporation anticipates that the counterparties will be able to fully satisfy their obligations under the agreements. All the contracts to which the Corporation is a party settle monthly or quarterly. In addition, the Corporation obtains collateral above certain thresholds of the fair value of its derivatives for each counterparty based upon their credit standing and the Corporation has netting agreements with the dealers with which it does business.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Stock-Based Compensation: Compensation cost is recognized for stock options and restricted stock awards issued to employees and directors, based on the fair value of these awards at the date of grant. A Black-Scholes model is utilized to estimate the fair value of stock options, while the market price of the Corporation's common stock at the date of grant is used for restricted stock awards. Compensation cost is recognized, on a straight-line basis over the requisite service period for the entire award generally defined as the vesting period.

Retirement Plans: Employee 401(k) benefit plan expense is the amount of matching contributions for the period.

Comprehensive Income (loss): Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on available-for-sale securities and unrealized gains and losses on cash flow hedges, which are also recognized as separate components of shareholders' equity.

Income Taxes: Income tax expense or benefit is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized.

A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

The Corporation recognizes interest and/or penalties related to income tax matters in income tax expense.

Earnings Per Share: Basic earnings per share available to common shareholders is computed by dividing net income adjusted for income allocated to participating securities by the weighted average number of common shares outstanding during the period. All outstanding unvested share-based payment awards that contain rights to non-forfeitable dividends are considered participating securities for this calculation. Diluted earnings per share include the dilutive effect of additional potential common shares issuable under stock options.

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe that there now are such matters that will have a material effect on the financial statements.

Restrictions on Cash: The Corporation has cash held with third-party provider as collateral on cash flow swap.

Dividend Restriction: Banking regulations require maintaining certain capital levels and may limit the dividends paid by the Bank to the Corporation or by the Corporation to shareholders.

Fair Value of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Off Balance Sheet Financial Instruments: Financial instruments include off-balance sheet credit instruments, such as commitments to make loans and standby letters of credit issued to meet customer financing needs. The face amount for these items represents the exposure to loss before considering customer collateral or ability to repay. Such financial instruments are recorded as loans when funded.

Operating Segments: While the chief operating decision makers evaluate the revenue streams of the Corporation's various products and services, operations are managed, resources are allocated, and overall financial performance is evaluated on a consolidated, Corporation-wide basis rather than through discrete operating results. Because resource-allocation and performance decisions are made using this consolidated information, management considers all financial service operations to comprise one aggregated reportable operating segment.

Reclassifications: Some items in the prior year financial statements were reclassified to conform to the current presentation. Reclassifications had no effect on prior year net income or shareholders' equity.

Adoption of New Accounting Standards: In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures." The amendments in this update enhance the transparency and decision usefulness of income tax disclosures. This ASU requires disclosures of specific categories and disaggregation of information in the rate reconciliation table. The ASU also requires disclosure of disaggregated information related to income taxes paid, income or loss from continuing operations before income tax expense or benefit, and income tax expense or benefit from continuing operations. The requirements of the ASU are effective for annual periods beginning after December 15, 2024. Please see the income tax footnote where the Corporation applied the standard prospectively.

The proceeds from sales and calls of available-for-sale securities and the associated gains and losses are listed below:

	<u>2025</u>	<u>2024</u>
Proceeds	\$ 16,423	\$ 23,904
Gross gains	-	44
Gross losses	(413)	(379)

Securities pledged at year-end 2025 and 2024 had a carrying value of \$13,722 and \$18,523, respectively, and were pledged to secure public deposits and interest rate swaps, and other borrowings with Federal Reserve Bank through the Discount Window. The Corporation had no holdings of securities of any one issuer, other than the U.S. government sponsored entities and agencies, in an amount greater than 10% of shareholders' equity.

The amortized cost and fair value of the investment securities portfolio are shown by contractual maturity. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are shown separately.

	<u>December 31, 2025</u>

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 2 - SECURITIES (Continued)**

Unrealized losses on securities have not been recognized into income because the issuers are of high credit quality, management does not intend to sell and it is more likely than not that management will not be required to sell the securities prior to their anticipated recovery, and the decline in fair value is largely due to changes in market interest rates instead of credit quality. The fair value is expected to recover as the securities approach their maturity dates and/or market rates change. However, during 2025 the Corporation recorded an allowance for credit losses of approximately \$620 on one security after evaluating credit-related factors, including evidence of financial deterioration at the issuer and the suspension of distributions. Based on this analysis, management concluded that a credit-related reserve was warranted for that security, and the carrying value was adjusted to reflect the third-party valuation. No allowance for credit losses was deemed necessary for the remainder of the portfolio, as no other securities were considered to be credit-impaired as of December 31, 2025.

Restricted equity securities consist of securities which are restricted as to transferability. These securities are recorded at cost. Restricted equity securities consist of the following at December 31, 2025 and 2024:

	<u>2025</u>	<u>2024</u>
Federal Home Loan Bank stock	\$ 2,862	\$ 1,348
Federal Reserve Bank stock	<u>968</u>	<u>924</u>
	<u>\$ 3,830</u>	<u>\$ 2,272</u>

**NOTE 3 - LOANS**

Loans at year-end were as follows:

	<u>2025</u>	<u>2024</u>
Commercial	\$ 106,556	\$ 59,916
Commercial real estate	320,870	263,485
Residential real estate	293,991	263,963
Construction and land development	60,149	39,638
Consumer	<u>33,472</u>	<u>43,878</u>
Subtotal	815,038	670,880
Net deferred loan fees	<u>(1,484)</u>	<u>(898)</u>
Loans, net of deferred loan fees	813,554	669,982
Allowance for credit losses	<u>(7,415)</u>	<u>(6,433)</u>
Net loans	<u>\$ 806,139</u>	<u>\$ 663,549</u>

**NOTE 3 - LOANS** (Continued)

**Loan Modifications to Borrowers Experiencing Financial Difficulties**

Occasionally, the Corporation modifies loans to borrowers in financial distress by providing insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses.

In some cases, the Corporation provides multiple types of concessions on one loan. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession, such as principal forgiveness, may be granted.

There were no loans at December 31, 2025 that were both experiencing financial difficulty and modified during the year ended 2025. The following table presents the amortized cost basis of loans at December 31, 2024 that were both experiencing financial difficulty and modified during the year ended 2024, by class and by type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial distress as compared to the amortized cost basis of each class of financing receivable is also presented below:

<u>December 31, 2024</u>	<u>Principal Forgiveness</u>	<u>Payment Delay</u>	<u>Term Extension</u>	<u>Interest Rate Reduction</u>	<u>Total Class of Financing Receivable</u>
Commercial	\$ -	\$ 4,967	\$ -	\$ -	8.29%

The Corporation has not committed to lend additional amounts to the borrower included in the previous table. The Corporation closely monitors the performance of the loans that are modified to borrowers experiencing financial difficulty to understand the effectiveness of its modification efforts. The loan to a borrower experiencing financial difficulty that has been modified in the last 12 months was not past due as of December 31, 2025, and did not have a payment default during the year ended December 31, 2025. Upon the Corporation's determination that a modified loan (or portion of a loan) has subsequently been deemed uncollectible, the loan (or portion of the loan) is written off. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 3 - LOANS** (Continued)

There were \$10 and \$11 loans past due over 89 days and still accruing as of December 31, 2025, and 2024, respectively. There were \$94 and \$0 loans on non-accrual as of December 31, 2025, and 2024, respectively. There were no loans on non-accrual with no allowance for credit loss as of December 31, 2025, and 2024.

The following table presents the aging of the amortized cost basis in past due loans as of December 31, 2025, and 2024 by class of loans:

	30 - 59 Days Past Due	60 - 89 Days Past Due	Greater than 89 Days Past Due	Total Past Due	Loans Not Past Due	Total

**Collateral-Dependent Loans**

A loan is collateral dependent when the borrower is experiencing financial difficulty and repayment of the loan is expected to be provided substantially through the sale or operation of the collateral. There were no collateral dependent loans as of December 31, 2025, or 2024, respectively.

**TRUXTON CORPORATION**

**NOTE 3 - LOANS** (Continued)

**Credit Quality Indicators:**

The Corporation categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Corporation periodically analyzes loans individually by classifying the loans as to credit risk. The Corporation uses the following definitions for risk ratings:

**Special Mention.** Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

**Substandard.** Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

**Doubtful.** Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass-rated loans.

The table below is based on the most recent analysis performed loan balances classified within each risk category by primary loan type based on year of origination or most recent renewal as of December 31, 2025:

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**  
(Dollars in thousands except share and per share amounts)

**NOTE 4 - PREMISES AND EQUIPMENT**

Year-end premises and equipment were as follows:

	<u>2025</u>	<u>2024</u>
Leasehold improvements	\$ 2,541	\$ 2,538
Furniture, fixtures and equipment	1,237	1,299
Computer software	<u>279</u>	<u>857</u>
	4,057	4,694
Less: Accumulated depreciation and amortization	<u>(1,138)</u>	<u>(1,401)</u>
Net premises and equipment	<u>\$ 2,919</u>	<u>\$ 3,293</u>

Depreciation and amortization expense totaled \$517 and \$349 for 2025 and 2024, respectively.

**NOTE 5 - LEASES**

The Corporation enters into leases in the normal course of business primarily for the Corporation's office space. The Corporation's main office facility moved its headquarters into a new space in 2024, with a lease commencing January 1, 2024, and terminating February 1, 2034, with two 5-year renewal options. The Corporation's current leases have remaining terms ranging from 18 months to 108 months, some of which include renewal options to extend the lease for up to 2 years. The Corporation's leases do not include residual value guarantees or covenants.

The Corporation has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Corporation has also elected not to recognize leases with original lease terms of 12 months or less (short-term leases) on the Corporation's balance sheet.

The Corporation's leases are classified as operating leases at the lease commencement date. Lease expense for operating leases is recognized on a straight-time basis over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

The Corporation uses its incremental borrowing rate at lease commencement to calculate the present value of lease payments when the rate implicit in a lease is not known. The Corporation's incremental borrowing rate is based on FHLB amortizing advance rate, adjusted for the lease term and other factors.

Right-of-use assets and lease liabilities by lease type, and associated balance sheet classification, are as follows:

<u>Balance Sheet Classification</u>		<u>2025</u>	<u>2024</u>
Right-of-use assets:			
Operating leases	Other assets	\$ 3,880	\$ 4,290
Lease liabilities:			
Operating leases	Other liabilities	\$ 4,216	\$ 4,601

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**  
(Dollars in thousands except share and per share amounts)

---

**NOTE 7 - BORROWINGS**

Borrowings include Federal Home Loan Bank advances and subordinated debt.

**Federal Home Loan Bank Advances**

At December 31, 2025 and 2024, advances from the FHLB were as follows:

For 2025, interest rates ranged from 3.68% to 4.33%, averaging 3.87% with maturities between January 27, 2026 and June 16, 2028. \$ 46,000

For 2024, interest rates ranged from 1.02% to 4.18%, averaging 3.29% with maturities between January 14, 2025 and September 16, 2026. \$ 8,250

The advances are subject to penalties if repaid before scheduled payments are due. The Bank's outstanding borrowings from the FHLB are secured by a blanket pledge agreement of 150% of 1-4 family loans, first lien mortgage loans. The Bank has approximately \$105,476 of 1-4 family, first mortgage loans, \$53,599 of home equity mortgage loans and \$34,128 of multi-family loans available to pledge under the blanket pledge arrangement dated March 16, 2006. Based on the collateral and the Corporation's holdings of FHLB Stock, the Bank is eligible to borrow additional advances of approximately \$67,680 as of December 31, 2025.

Payments over the next five years are as follows:

2026	\$ 8,000
2027	34,000
2028	4,000

**Subordinated Debt**

In 2020, the Corporation issued \$15,000 of ten year fixed-to-floating rate subordinated notes maturing September 30, 2030. This subordinated note instrument pays interest semi-annually in arrears based on a 4.5% fixed annual interest rate for the first five years of the notes. For years six through ten, the interest rate resets on a quarterly basis, and will be based on the 3-month Secured Overnight Financing Rate plus a spread of 438 basis points. In 2023, the Corporation repurchased \$500 of the debt and recognized a gain of \$50. In 2025, the Corporation redeemed the remaining \$14,500 in notes.

The Corporation has recorded the issuance, net of unamortized issuance costs of \$0 and \$74 as of December 31, 2025, and 2024, respectively.

**Bank Term Funding Program Advances**

The Federal Reserve Bank created the new Bank Term Funding Program (BTFP) on March 12, 2024, whereby banks with Discount Window access could receive 1-year fixed rate advances, prepayable without penalty, based on the par value of their eligible pledged collateral, at a rate equal to the 1-year overnight index swap rate plus 10 basis points, fixed each morning.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 7 - BORROWINGS** (Continued)

**Federal Reserve Bank Discount Window Advances**

The Corporation maintains access to the Federal Reserve Bank Discount Window primary credit by pledging securities. The Corporation utilized Discount Window Primary Credit advances for short-term funding throughout 2025 and 2024 but had no outstanding advances at December 31, 2025 and 2024. The Corporation had approximately \$185,542 of availability at December 31, 2025 based on the value of pledged securities.

**Line of Credit**

In November 2025, the Corporation entered into a secured \$5,000 revolving line of credit with another bank, maturing in November 2027. Borrowings bear interest at the Prime Rate less 0.50%, subject to a 5.00% floor, with interest payable quarterly. The facility includes a 0.15% annual non-use fee on the unused commitment and a \$5,000 origination fee paid at closing. The line is secured by a pledge of 100% of the stock of the Corporation. There were no outstanding borrowings as of December 31, 2025.

**NOTE 8 - INCOME TAXES**

Pretax income from continuing operations was \$26,718 for 2025. The Corporation only has domestic operations.

Income tax expense from continuing operations was as follows:

	<u>2025</u>	<u>2024</u>
Current expense (benefit)		
Federal	\$ 5,633	\$ 4,668
State	<u>(239)</u>	<u>206</u>
Total current	5,394	4,874
Deferred expense (benefit)

**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 8 - INCOME TAXES** (Continued)

	2025	
	Amount	Percent
Federal statutory income tax	\$ 5,611	21.0%
Effect of:		
State taxes, net of federal benefit	72	0.3
Nontaxable or nondeductible items:		
Tax exempt interest income	(333)	(1.3)
Bank owned life insurance income	(114)	(0.4)
Other, net	(2)	-
Total income tax expense	\$ 5,234	19.6%

State taxes in Tennessee made up the majority (greater than 50%) of the tax effect in this category.

Effective tax rates differ from federal statutory rate of 21% for 2024 applied to income before income taxes due to the following:

	2024
Federal statutory rate times financial statement income	\$ 4,823
Effect of:	
State taxes, net of federal benefit	(9)
Tax exempt interest income	(175)
Bank owned life insurance income	(62)
Other, net	(21)
Total income tax expense	\$ 4,556

Income taxes paid were as follows:

	2025
Federal	\$ 4,910
State	
Tennessee	450
Georgia	39
Total	\$ 5,399

Year-end deferred tax assets and liabilities were due to the following:

	<u>2025</u>	<u>2024</u>
Deferred tax assets:		
Allowance for credit losses	\$ 2,294	\$ 1,807
Loan origination income	454	296
Net unrealized losses on available-for-sale securities	2,347	4,568
Depreciation	-	53
Other	<u>1,145</u>	<u>1,068</u>
Total deferred tax assets	6,240	7,792
Deferred tax liabilities:		
Prepaid expenses	(402)	(298)
Stock based compensation expense	(194)	(330)
Restricted equity stock dividends	(1)	(5)
Loan origination expenses	(66)	(61)
Net unrealized gain on cash flow hedges	(511)	(944)
Depreciation	(421)	-
Other	<u>(1,015)</u>	<u>(898)</u>
Total deferred tax liabilities	<u>(2,610)</u>	<u>(2,536)</u>
Deferred tax asset, net	<u>\$ 3,630</u>	<u>\$ 5,256</u>

The Corporation does not have any uncertain tax positions and has minimal interest and penalties recorded or accrued in the consolidated financial statements for the years ended December 31, 2025, and 2024. The Corporation and its subsidiaries are subject to U.S. federal income tax as well as income tax of the states of Georgia and Tennessee. The Corporation is no longer subject to examination by taxing authorities for years before 2021.

**NOTE 9 - RELATED PARTY TRANSACTIONS**

Loans to principal officers, directors and their affiliates at December 31, 2025 and 2024 totaled \$12,432 and \$11,174, respectively.

Deposits from principal officers, directors and their affiliates at December 31, 2025 and 2024 totaled \$3,548 and \$2,877, respectively.

Wealth management fees earned from assets under management for principal officers, directors and their affiliates at December 31, 2025 and 2024 totaled \$2,267 and \$1,827, respectively.

The Corporation recognized \$20 and \$20 from an unconsolidated related entity at December 31, 2025 and 2024, respectively.

Additionally, the Corporation has a director that is a member of the firm from which the Corporation receives legal services and an employee of the Corporation that formerly worked for the Corporation's audit firm during the year.

**TRUXTON CORPORATION**

**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 10 - REGULATORY CAPITAL MATTERS**

Banks and bank holding companies are subject to regulatory capital requirements administered by federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action. The net unrealized gain or loss on available-for-sale securities and cash flow hedge is included in computing regulatory capital. Management believes as of December 31, 2025, the Bank meets all capital adequacy requirements to which it is subject.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At December 31, 2025 and 2024, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the institution's category.

Actual and required capital amounts and ratios for the Bank are presented below as of December 31, 2025 and 2024. The capital conservation buffer is not included in the required ratios of the table presented below.

	<u>Actual</u>		<u>For Capital Adequacy Purposes</u>		<u>To Be Well Capitalized Under Prompt Corrective Action Provisions</u>	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>
<b>2025</b>						
Total Capital to risk weighted assets	\$ 127,190	13.81%	\$ 73,655	8.00%	\$ 92,069	10.00%
Tier 1 (Core) Capital to risk weighted assets	119,034	12.93%	55,241	6.00%	73,655	8.00%
Common Tier 1 (CET1)	119,034	8.77%	41,431	4.50%	59,845	6.50%
Tier 1 (Core) Capital to average assets	119,034	12.93%	54,277	4.00%	67,847	5.00%
<b>2024</b>						
Total Capital to risk weighted assets	\$ 115,593	16.15%	\$ 56,383	8.00%	\$ 70,478	10.00%
Tier 1 (Core) Capital to risk weighted assets	108,677	15.19%	42,938	6.00%	57,251	8.00%
Common Tier 1 (CET1)	108,677	15.19%	32,204	4.50%	46,516	6.50%
Tier 1 (Core) Capital to average assets	108,677	10.63%	40,880	4.00%	51,100	5.00%

**Dividend Restrictions** - The Corporation's principal source of funds for dividend payments is dividends received from the Bank. Banking regulations limit the amount of dividends that may be paid without prior approval of regulatory agencies. Under these regulations, the amount of dividends that may be paid in any calendar year is limited to the current year's net profits, combined with the retained net profits of the preceding two years, subject to the capital requirements described above. As of December 31, 2025, the Bank could, without prior approval, declare dividends of approximately \$13,875 plus any 2026 net profits retained to date of declaration.

**TRUXTON CORPORATION**

**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

---

**NOTE 11 - OFF-BALANCE SHEET ACTIVITIES**

Some financial instruments, such as loan commitments, credit lines, and letters of credit, are issued to meet customer financing needs. These are agreements to provide credit or to support the credit of others as long as conditions established in the contract are met. In addition, these agreements usually have expiration dates, and the commitments may expire without being used.

Off-balance sheet risk to credit loss exists up to the face amount of these instruments, although material losses are not anticipated. The same credit policies are used to make such commitments as are used for loans, including obtaining collateral at the exercise of the commitment. The majority of the Corporation's commitments to extend credit have maturities of less than one year and reflect the prevailing market interest rates at the time of the commitment.

The contractual amount of financial instruments with off-balance sheet risk was as follows at December 31:

	<u>2025</u>	<u>2024</u>
Letters of Credit	\$ 24,014	\$ 12,540
Unused Lines of Credit	214,046	175,665

**NOTE 12 - STOCK BASED COMPENSATION PLAN**

Total stock-based compensation expense in 2025 and 2024 was \$1,500 and \$1,456, respectively. Related to the 2025 and 2024 restricted stock grants, some employees made an election, in accordance with Section 83(b) of the Internal Revenue Code, to have the fair value of the awards taxable immediately. In connection with the election, the Corporation allowed the employees to forfeit shares to cover the related personal tax obligation. During 2025 employees forfeited 265 shares with a total fair value of \$20 in connection with the election. During 2024 employees forfeited 596 shares with a total fair value of \$37 in connection with the election. These amounts were recorded in salaries and employee benefits on the Corporation's consolidated statements of income in 2025 and 2024.

The Corporation's 2021 Equity Incentive Plan, approved by shareholders on May 19, 2022, provides for the grant of stock options, restricted stock, and other equity-based incentives of 233,751 shares. As of December 31, 2025, the Corporation has issued 115,932 of these shares under the 2021 Equity Incentive Plan.

Stock Option Grants

Option awards are granted with an exercise price equal to the market price of the Corporation's common stock at the date of grant. Option awards have vesting periods of one to six years and have 10-year contractual terms. The Corporation uses newly issued shares to satisfy share option exercises.

The fair value of each option award is estimated on the date of grant using a closed form option valuation (Black-Scholes) model that uses the assumptions noted in the table below. Expected volatilities are based on historical trading of the shares of Truxton Corporation common stock for 2025 and 2024. The expected term of options granted is based on historical data and represents the period of time that options granted are expected to be outstanding taking into account that the options are not transferable.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**  
(Dollars in thousands except share and per share amounts)

**NOTE 12 - STOCK BASED COMPENSATION PLAN (Continued)**

The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of the grant.

During 2025 and 2024, the Corporation did not issue incentive stock options for the purchase of shares of common stock, respectively.

A summary of the stock option activity for 2025 follows:

	<u>Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term</u>	<u>Aggregate Intrinsic Value</u>
Outstanding at beginning of year	6,700	\$ 29.76	1.91	
Forfeited	-	-		
Exercised	<u>(3,350)</u>	26.56		
Outstanding at end of year	<u>3,350</u>	32.96	1.54	\$ 184
Vested or expected to vest	3,350	32.96	1.54	184
Exercisable at end of year	<u>3,350</u>	32.96	1.54	184

Information related to stock options during each year follows:

	<u>2025</u>	<u>2024</u>
Intrinsic value of options exercised	\$ 206	\$ 333
Cash received from option exercises	89	207
Weighted average fair value of options granted	-	-

All stock options granted under the Plan are vested and exercisable as of December 31, 2025.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 12 - STOCK BASED COMPENSATION PLAN (Continued)**

Restricted Stock Grants

In 2025 and 2024, the Corporation issued 19,466 and 32,094 restricted shares of common stock, respectively. Compensation expense is recognized over the vesting period of the awards based on the value of the stock at issue date. The fair value of the stock was determined by current stock trade activity. These shares vest over a period of five to ten years.

A summary of the changes in the Corporation's non-vested shares for the year follows:

<u>Non-vested shares</u>	<u>Shares</u>	<u>Weighted-Average Fair Value</u>
Non-vested at January 1, 2025	79,906	\$ 63.53
Granted	19,466	74.47
Vested	(24,504)	59.59
Forfeited or expired	<u>(1,235)</u>	<u>69.82</u>
Non-vested at December 31, 2025	<u>73,633</u>	<u>\$ 67.68</u>

As of December 31, 2025, there was \$3,712 of total unrecognized compensation cost related to non-vested restricted shares granted under the Plan. The cost is expected to be recognized over a weighted-average period of 2.4 years.

**NOTE 13 - DERIVATIVES**

The Corporation utilizes interest rate derivative agreements as part of its asset liability management strategy to help manage its interest rate risk position. The notional amount of the interest rate derivatives does not represent amounts exchanged by the parties. The amount exchanged is determined by reference to the notional amount and the other terms of the individual interest rate derivative agreements.

**Fair Value Hedge**

The Corporation had derivatives designated as fair value hedges for loans, totaling \$30,431 and \$23,102 in notional, respectively, as of December 31, 2025 and 2024, with the increase reflecting an additional loan hedged by an interest rate cap. The Corporation had swaps designated as fair value hedges for available-for-sale securities, totaling \$33,450 and \$8,750 in notional, respectively, as of December 31, 2025 and 2024, with the increase reflecting additional hedges totaling \$9,700, \$5,000, and \$10,000 notional in April, July, and August 2025. The hedges were determined to be effective during all periods presented. The Corporation expects the hedges to remain effective during the remaining terms of the swaps.

The following table reflects the fair value hedges included in the consolidated statements of net income as of December 31:

<u>Interest rate contracts</u>	<u>Location</u>	<u>2025</u>	<u>2024</u>
Change in fair value on interest rate derivatives hedging loans	Loan interest income	\$ (394)	\$ 299
Change in fair value on interest rate swaps hedging securities	Security interest income	\$ (338)	\$ (307)

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 13 - DERIVATIVES** (Continued)

The following table presents the amounts recorded on the consolidated balance sheets related to cumulative basis adjustment for fair value hedges as of December 31:

<u>Line Item in the Balance Sheet in Which the Hedged Item is Included</u>	<u>Carrying Amount of the Hedged Assets</u>		<u>Cumulative Amount of Fair Value Hedging Adjustment Included in the Carrying Amount of the Hedged Assets (Liabilities)</u>	
	<u>2025</u>	<u>2024</u>	<u>2025</u>	<u>2024</u>
	Loans, net	\$ 30,428	\$ 23,100	\$ (719)
Available-for-sale securities	33,304	7,762	(345)	(833)

The following table reflects the fair value hedges included in the consolidated balance sheets as of December 31:

	<u>2025</u>		<u>2024</u>	
	Notional Amount	Fair Value	Notional Amount	Fair Value
<u>Included in other assets:</u>				
Derivatives designated as hedges:				
Interest rate derivatives related to fixed rate loans	\$ 30,431	\$ 795	\$ 23,103	\$ 1,437
Derivatives designated as hedges:				
Interest rate swaps related to fixed rate bonds	\$ 8,750	\$ 477	\$ 8,750	\$ 834
<u>Included in other liabilities:</u>				
Derivatives designated as hedges:				
Interest rate swaps related to fixed rate bonds	\$ 24,700	\$ 131	\$ -	\$ -

**Cash Flow Hedge**

Interest Rate Swaps Designated as Cash Flow Hedges: Interest rate swaps with notional amounts totaling \$88,000 and \$75,000, respectively, as of December 31, 2025 and 2024, were designated as cash flow hedges of certain deposit accounts and were determined to be fully effective during the periods presented.

In March 2024 and August 2024, the Corporation entered into new cashflow hedges of \$5,000 each, whereby the Corporation paid a fixed interest rate and receives a monthly average of the Effective Federal Funds rate, to which the hedged deposits' rates are indexed.

In February, March, and April 2025, the Corporation entered into new cashflow hedges totaling \$6,000, \$7,000, and \$5,000 notional, respectively, whereby the Corporation pays a fixed interest rate and receives a monthly average of the Effective Federal Funds rate, to which the hedged deposits' rates are indexed. The Corporation had \$68,000 notional cashflow hedges for Fed Funds Effective indexed deposits and \$20,000 notional cashflow hedges for 3-month wholesale funding. As such, no amount of ineffectiveness has been included in net income. Therefore, the aggregate fair value of swaps is recorded in other liabilities with changes in fair value recorded in other comprehensive income. The Corporation expects the hedges to remain fully effective during the remaining terms of the swaps.

**NOTE 14 - FAIR VALUES OF FINANCIAL INSTRUMENTS**

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a Corporation's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Corporation used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Investment Securities: The fair values for investment securities are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated using a matrix pricing model, which is based on market prices of similar securities (Level 2). Matrix pricing is a mathematical technique commonly used to price debt securities that are not actively traded, which values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark securities. For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3).

Derivatives: The fair value of the derivatives is based on valuation models using observable market data as of the measurement date (Level 2). Our derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, prepayment rates, and volatility factors to value the position. The majority of the market inputs is actively quoted and can be validated through external sources, including brokers, market transactions and third-party pricing services.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 14 - FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)**

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements Using:			
	Carrying Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 14 - FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)**

There were no transfers between Level 1 and Level 2 during 2025 or 2024. The Corporation had one available-for-sale corporate debt security with a fair value of \$876 as of December 31, 2025 transferred out of Level 2 and into Level 3 because of a lack of observable market data for the investment due to a decrease in the market activity for this security.

The carrying amounts and estimated fair values of financial instruments, at December 31, 2025 and December 31, 2024 are as follows:

	Carrying Value	Fair Value Measurements Using:			Total
		Level 1	Level 2	Level 3	
<u>December 31, 2025</u>					
Financial assets:					
Cash and cash equivalents	\$ 57,100	\$ 57,100	\$ -	\$ -	\$ 57,100
Time deposits in other financial institutions	-	-	-	-	-
Available-for-sale securities	505,325	-	505,325	-	505,325
Restricted equity securities	3,830	NA	NA	NA	NA
Loans, net	806,139	-	-	802,074	802,074
Accrued interest receivable	5,959	-	3,185	2,774	5,959
Derivatives	2,882	-	2,882	-	2,882
Financial liabilities:					
Deposits	\$1,240,006	\$ -	\$1,239,994	\$ -	\$1,239,994
Federal Home Loan Bank advances	46,000	-	46,144	-	46,144
Accrued interest payable	1,303	1,303	-	-	1,303
Derivatives	131	-	131	-	131
<u>December 31, 2024</u>					
Financial assets:					
Cash and cash equivalents	\$ 33,977	\$ 33,977	\$ -	\$ -	\$ 33,977
Time deposits in other financial institutions	245	-	245	-	245
Available-for-sale securities	258,322	-	258,322	-	258,322
Restricted equity securities	2,272	NA	NA	NA	NA
Loans, net	663,549	-	-	641,285	641,285
Accrued interest receivable	4,567	-	1,920	2,647	4,567
Derivatives	6,494	-	6,494	-	6,494
Financial liabilities:					
Deposits	\$ 866,422	\$ -	\$ 865,636	\$ -	\$ 865,636
Federal Home Loan Bank advances	8,250	-	8,190	-	8,190
Accrued interest payable	646	646	-	-	646

The methods and assumptions, not previously presented, used to estimate fair values are described as follows:

The carrying amount of cash and cash equivalents approximates fair values and are classified as Level 1. Time deposits in other financial institutions have infrequent repricing or repricing limits and their fair value is based on discounted cash flows using current market rates applied to the estimated life and are classified as Level 2. It is not practical to determine the fair value of restricted equity securities due to the restrictions placed on its transferability.

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 14 - FAIR VALUES OF FINANCIAL INSTRUMENTS** (Continued)

The fair value of loans is determined based on a discounted cash flow analysis (income approach). The discounted cash flow was based on contractual maturity of the loan and current market assumptions resulting in a level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously.

The fair values disclosed for demand deposits are by definition, equal to the amount payable on demand at the reporting date resulting in a Level 2 classification. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flows calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification. The fair values of the Bank's Federal Home Loan Bank advances are estimated using discounted cash flows based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification. The carrying amounts of accrued interest approximate fair value resulting in Level 2 or 3 classifications.

**NOTE 15 - OTHER BENEFIT PLANS**

The Corporation has a 401(k) benefit plan that covers all employees who meet certain eligibility requirements and choose to participate in the plan. The plan allows employee contributions up to the federal limits, which are matched 100% for the first 3% of compensation contributed and then 50% of the next 2% of compensation contributed beginning on the first day of the calendar quarter following the employee's one-year anniversary. The 401(k) benefit plan expense for 2025 and 2024 was \$425 and \$400, respectively.

**NOTE 16 - OTHER COMPREHENSIVE INCOME**

The following is a summary of the accumulated other comprehensive loss balances, net of tax:

	Balance at <u>12/31/2024</u>	Current Period <u>Change</u>	Balance at <u>12/31/2025</u>
Unrealized gains (losses) on available- for-sale securities	\$ (12,920)	\$ 5,910	\$ (7,010)
Unrealized gains on cash flow hedge	<u>2,668</u>	<u>(1,479)</u>	<u>1,189</u>
Total	<u>\$ (10,252)</u>	<u>\$ 4,431</u>	<u>\$ (5,821)</u>

**TRUXTON CORPORATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**December 31, 2025 and 2024**

(Dollars in thousands except share and per share amounts)

**NOTE 17 - EARNINGS PER SHARE**

Basic earnings per share available to common shareholders is computed by dividing net income adjusted for income allocated to participating securities by the weighted average number of common shares outstanding during the period. All outstanding unvested share-based payment awards that contain rights to non-forfeitable dividends are considered participating securities for this calculation. Diluted earnings per share available to common shareholders reflects the potential dilution that could occur if stock options to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. The factors used in the earnings per share computation follows:

	<u>2025</u>	<u>2024</u>
Basic		
Net income	\$ 21,484	\$ 18,411
Less: Undistributed income allocated to participating securities	<u>567</u>	<u>518</u>
Net income allocated to common shareholders	<u>\$ 20,917</u>	<u>\$ 17,893</u>
Weighted common shares outstanding including participating securities	2,878,917	2,900,571
Less: Participating securities	<u>75,923</u>	<u>81,663</u>
Weighted average common shares	<u>2,802,994</u>	<u>2,818,908</u>
Basic earnings per common share	<u>\$ 7.46</u>	<u>\$ 6.35</u>
Diluted		
Net income allocated to common shareholders	<u>\$ 20,917</u>	<u>\$ 17,893</u>
Weighted average common shares	2,802,994	2,818,908
Add: Dilutive effects of assumed exercises of stock options and warrants	<u>2,267</u>	<u>5,276</u>
Average shares and dilutive potential common shares	<u>2,805,261</u>	<u>2,824,184</u>
Diluted earnings per common share	<u>\$ 7.46</u>	<u>\$ 6.34</u>

At year-end 2025 and 2024, there were no stock options that were not considered in computing diluted earnings per common share because they were antidilutive.
